INTRODUCTION

British Columbia Public Libraries Statistics is an annual publication of the Public Library Services Branch of the Ministry of Education. It provides a compilation of statistical and financial data summarizing the activities of British Columbia public libraries for the calendar year. The statistics and the complete survey questions are also published on the Ministry of Education web site at:

http://www.bced.gov.bc.ca/pls/

Since 1997, the statistics have been collected electronically, using a web-based survey that accepts data filed by all public libraries in the province. The validity of the statistics in this publication is subject to the accuracy of the data supplied in the online Annual Survey of Public Libraries.

Tables are ordered alphabetically by library name and numerically by population served. The entry n.d. means no data was supplied by the library; n.a. means the entry does not apply to the library. Zero values are represented by a dash (-). Figures appearing in italics are estimates derived from responses to a Typical Week Survey conducted during November 2006.

For the purposes of this publication, the population of a public library service area is the population of the area from which the public library receives local government tax support. The population of View Royal is served by two libraries, Greater Victoria Public Library and View Royal Public Library Association. Population for a service area is only reported once. Because the service population is related to operating grants, for the purposes of this document, the population (8,382) of View Royal is reported under Greater Victoria Public Library. All other data for View Royal Public Library Association are reported in the tables.

The annual compilation of public library statistics is an important accountability, planning, and performance measurement tool for library trustees, library staff and local government officials. The Public Library Services Branch is grateful for the support and cooperation of the public libraries of the province in providing the data for this publication.

As always, the Branch will be pleased to receive comments and suggestions for improvements to the publication.
